MP3 Player kids edition

MP600

MP3 player

The MP600 is the first mp3 player exclusively designed for kids. With it's soft touch buttons it's easy to use and the hard casing makes it a player which can stand an accidental fall. The backlight LCD display gives a clear view on the menu and with the ID3 tag function it's easy to see what song is playing. The MP600 contains a build-in accumulator causing batteries to belong to the past. This build-in battery can simply be charged with the delivered charger through the USB port on your computer. Plain and simple is what the DIFRNCE MP600 is all about.
